

## SB60 Single Pour Soy Base Wax

### TECHNICAL DATA SHEET

#### DESCRIPTION:

Orchid Wax SB60 is a high-quality soy base wax manufactured in the United States.

Kosher certified and vegan friendly.

Contains no paraffin.

Made with 100% soy and vegetable waxes, SB60 produces a reliable smooth appearance with every pour.

SB60 is available in flakes form for easy usage and its lower melting point provides better fragrance retention.

#### HEATING:

Use water base to melt wax in steel container (double boiler, do not place container on direct heat).

Do not exceed 200°C.

Do not leave wax unattended overheat source.

Melting point is 60°C.

pouring temperature is 60-65°C.

Always test wick, fragrance and colour with wax to ensure it meets your requirements. Seek advice from your supplier to obtain suitable colourants and additives for your candle's formula.

#### INSTRUCTIONS:

Heat wax flakes to 70-75°C and stir continuously until completely melted.

Add colour and fragrance at recommended amounts; stir until completely dissolved. Recommended pouring temperature is 60-65°C.

#### TYPICAL PROPERTIES:

- Melting Point: 60°C
- Colour: White
- Melting Temperature: 70-75°C
- Fragrance Temperature: 60-65°C
- Pouring Temperature: 60-65°C
- Fragrance Load: 6-10%

#### NOTE:

Store in a cool, dry place and away from direct sunlight.
